

YANMAR

POWER PROFILE

Application:	Commercial - Line Boat
Vessel Construction:	Aluminium
Vessel Name:	Hardline
Vessel Owner:	Rob Been
Length (LWL/LOA):	10M
Weight:	8,800kgs
Engine:	Yanmar 6LPA-STP2 x 2
Engine Power Rating:	
Drive configuration:	Shaft
Gear Ratio and Model:	2.43 : 1 KMH50
Cruise Speed /Fuel Consumption	
Top Speed:	28.5 knots
Propeller Size:	22 x 24 x 4 Blade
Technician Name:	Barrie Hammer
Date of Operational check:	30/05/2013
Sold by:	Power Equipment QLD
Repower & Installation Completed By:	Everingham Marine

YANMAR

POWER PROFILE

Comments:

This is a new build for the AFE Group out of Port Lincoln in South Australia. It is our first opportunity to provide product to this well established company who are by far the largest tuna farmers in the Port Lincoln region. The new vessel "SUMMER" is fitted with Hamilton Jets "Blue Arrow" control system, thus offering the skipper unequalled control of the vessel in all sea conditions. At a cruise speed of 18 knots the engines are ticking over at a lazy 1750 rpm, so fuel consumption will be impressive. The vessel is also fitted with a MASE "Mariner 3400T" Gen-Set.

Disclaimer: Power Equipment provides this Performance Report for general information only. This data is accurate only as to the exact date, time and specifications set out in this Report. YANMAR makes no warranties as to the performance or fuel consumption of any boat equipped with a Yanmar engine as numerous factors affect actual performance of an engine.
