## LPA Series - Sterndrive Yanmar LPA Series Marine Diesel Engine 6LPA-DT2P 260mph

“Seasoned Boater Repowers with Yanmar”

“When my 23 year old Cairns Custom Craft needed an engine transplant I listened to what my boating mates had to say and also went to see what was available at the boat shows. The name Yanmar kept coming up, mainly for their incredible fuel economy.

I re-powered with Yanmar 6LPA-DT2P with MerCruiser Bravo Two-X leg and couldn't be happier. Now I have an extra 30hp at the prop and about the same weight.

But my fuel consumption has plummeted. The regular offshore fishing trip I used to make used to chew up 150 litres of fuel. Now I use only 80 litres and I can do the 90 NM trip quicker too.

Apart from the reliability and reduced engine noise, the additional benefits with the Yanmar 6LPA are increased torque, faster top end speed and the enormous fuel savings.

My game is technology and the quality engineering that is built into the Japanese engineered Yanmar makes them stand out from the rest.”
