Toonalook Crosses Bass Strait

The recently launched 6m clinker motor boat, Toonalook, embarked on a maiden voyage across the notorious Bass Strait to Hobart for the Australian Wooden Boat Festival. Crafted by specialist wooden boat building team Frencheville Heaney, Toonalook is powered by Yanmar's 3YM20 diesel engine which delivered a faultless performance through the journey.

Yanmar Diesel and Wooden Boats - The Natural Choice

"The log shows under two litres/hour at an average speed of 5.5 to 6 knots, not bad for an engine that had less than 20 hours on its clock before we departed."
