## Comments:

Fish On is a Roger Hill Power Cat 12.8m in length and 5.2m wide. Fish On Charters specialise in group charters for Fishing, Game Fishing, Diving, Kayak trips or Island tours. After 15 years of reliable operation with the now superseded Yanmar 6LYAM-STP, the owner decided to repower the boat with the current engine model 6LY2A-UTP. After the repower, the boat was 4 knots faster than beforehand and the owner is very impressed with the results.

Disclaimer: Power Equipment provides this Performance Report for general information only. This data is accurate only as to the exact date, time and specifications set out in this Report. YANMAR makes no warranties as to the performance or fuel consumption of any boat equipped with a Yanmar engine as numerous factors affect actual performance of an engine.
